

Thank You:

I would like to extend a huge thank you to all that volunteered their time this fall through December. Whether teaching, assisting, participating in our events or supporting our amazing group of volunteers, you were a true gift. I am especially grateful to the patience you extended to me as I navigated a difficult family time while attending to the most important needs of the Christian Education program. Once again, the FPCEA church family's love for one another has shone through!
